2024 GMC Sierra 1500

\*GM CERTIFIED PRE-OWNED RATES @ 4.99% O.A.C

The 2024 GMC Sierra 1500 AT4 in bold black is the ultimate expression of off-road capability, luxury refinement, and full-size truck dominance—all in one unstoppable package. With just over 29,000 kilometers on the odometer and the balance of its 3-year/60,000 km factory warranty still intact, this nearly-new Sierra offers peace of mind alongside uncompromising performance. For drivers who demand more from their pickup—more power, more presence, more technology—the AT4 delivers across the board.

At the core of this powerhouse is GMC’s legendary 6.2-liter EcoTec3 V8 engine, putting down a commanding 420 horsepower and 460 lb-ft of torque. This is the biggest and most powerful gas engine in the Sierra lineup, and it’s built to move—whether you’re towing heavy loads or carving your own path through tough terrain. Paired with a smooth and responsive 10-speed automatic transmission and a true 4x4 drivetrain, this Sierra delivers a balanced mix of brute force and refined drivability. Whether you’re climbing trails, passing on the highway, or cruising through the city, this truck feels athletic, composed, and ready for anything.

Towing and payload capabilities are equally impressive, with a max towing capacity of up to 8,900 pounds and a payload rating exceeding 2,000 pounds. Combined with GMC’s Integrated Trailer Brake Controller, Trailer Sway Control, and Hitch Guidance with Hitch View, this AT4 is a serious hauler built for work, play, and everything in between. And thanks to its factory 2-inch suspension lift, off-road tuned Rancho shocks, skid plates, and a dual-speed Autotrac transfer case, this truck is built to conquer rocky trails, muddy job sites, and snow-covered roads with confidence and control.

Visually, this Sierra AT4 is a stunner. The black-on-black aesthetic is enhanced by its aggressive front fascia, signature red recovery hooks, body-colored accents, and black chrome grille. 18-inch machined aluminum wheels wrapped in Goodyear Wrangler DuraTrac all-terrain tires underscore its trail-ready stance, while LED headlights, fog lamps, and taillights lend it a sophisticated look that’s unmistakably GMC. Whether it’s parked at a worksite or pulling up to a high-end lodge, this AT4 commands attention from everywhere.
