2025 Kia Seltos

This stunning white 2025 Kia Seltos EX Premium AWD with the optional All-Weather Package is a virtually brand-new SUV that perfectly combines luxury, capability, and cutting-edge technology. With just over 2,000 kilometers on the clock, it's fresh off the showroom floor but available now at a more accessible price, making it an exceptional opportunity for anyone seeking a premium compact SUV that's ready for any season.

Under the hood, the trusted 2.0L 4-cylinder engine delivers a smooth 146 horsepower and 132 lb-ft of torque, paired seamlessly with Kia's Intelligent Variable Transmission (IVT) for effortless acceleration and excellent fuel efficiency. This powertrain ensures that whether you're navigating city streets or cruising on the highway, you'll enjoy responsive, quiet, and efficient performance. The advanced all-wheel-drive system is designed to automatically adjust torque distribution, providing confident traction and control on wet roads, snowy paths, or rugged terrain—ideal for Canada's diverse driving conditions.

What truly elevates this model is the EX Premium trim, which adds a suite of upscale touches to enhance your driving experience. Premium leather seating with heated and ventilated front seats create a luxurious cabin environment that keeps you comfortable no matter the weather. The All-Weather Package complements this with a heated steering wheel, heated rear seats, and a windshield wiper de-icer—perfect features to combat chilly mornings and winter storms with ease.

The interior centers around a large 10.25-inch touchscreen infotainment system that supports Apple CarPlay and Android Auto, so you can effortlessly integrate your smartphone for navigation, music, calls, and apps on the go. Wireless phone charging, a premium Bose audio system, and a wireless phone charger add to the high-end feel and convenience, making every drive enjoyable and connected.

Safety is paramount in the Seltos EX Premium AWD, featuring Kia's comprehensive Driver Assistance Suite, including Forward Collision-Avoidance Assist, Blind-Spot Collision-Avoidance Assist, Lane Keeping and Lane Following Assist, Rear Cross-Traffic Collision-Avoidance Assist, and Driver Attention Warning. These systems work continuously to provide you with an extra layer of protection and help you drive with confidence, whether in heavy traffic or on winding country roads.
