2022 GMC Sierra 1500

*GM CERTIFIED PRE-OWNED RATES @ 4.99% O.A.C

This black 2022 GMC Sierra 1500 Denali 4x4, equipped with the exceptional 3.0L Duramax diesel engine and just under 73,000 kilometers, represents a rare blend of luxury, performance, and long-haul reliability—and it's now available as a Certified Pre-Owned (CPO) vehicle, giving you even more peace of mind. Backed by a rigorous inspection and reconditioning process by our certified technicians, this Sierra has undergone a full brake service, had all major filters replaced (engine, cabin air, and diesel), and is now riding on four brand new BFGoodrich All-Season tires, ensuring you're ready to drive with confidence from the moment you take the wheel.

At the heart of this Denali is the revered 3.0L Duramax inline-six turbo diesel engine, engineered for durability, efficiency, and high torque output. Producing 277 horsepower and an impressive 460 lb-ft of torque, this powertrain is a workhorse in disguise—smooth, quiet, and incredibly capable. Whether you're towing up to 9,200 pounds, cruising on the highway, or navigating winter roads, the 10-speed automatic transmission paired with the 4x4 system ensures seamless power delivery and optimal fuel economy. This diesel is known not only for its muscle but for its refined drive, making it equally suited for heavy loads and daily commutes.

Being a Denali, this Sierra doesn't just get the job done—it does it in absolute comfort and style. The cabin is a sanctuary of premium materials, with perforated leather upholstery, open-pore wood accents, and Denali-exclusive badging throughout. Both front seats are heated and ventilated with full power adjustment and memory settings. A heated steering wheel, heated rear seats, and dual-zone climate control offer tailored comfort for all passengers, no matter the season.

Technology is another area where this Denali shines. You'll find a large 13.4-inch touchscreen infotainment system powered by Google Built-In, alongside a crisp 12.3-inch digital driver display. Wireless Apple CarPlay and Android Auto come standard, as does an integrated navigation system and a premium Bose sound system that transforms the cabin into a rolling concert hall. You'll also benefit from a multi-angle HD rearview camera, trailer brake controller, hitch guidance, and GM's comprehensive Pro Safety package, which includes features like forward collision alert, lane keep assist, automatic emergency braking, and more.
