History

This 2017 F-150 XLT came to us from an out-of-town customer who just traded up to a brand new F-150, and it is ready for the next owner who wants a well equipped truck without paying new truck money. It is built for work and play with the proven 5.0L V8, 4x4 with electronic shift on the fly, and a 3.73 electronic locking rear axle that makes towing and slick conditions much more manageable. It also carries the XTR Package along with 18 inch chrome-like wheels, chrome step bars, and all-terrain tires, so it looks as tough as it works. Inside the SuperCrew cab you get four full doors, cloth seating for the whole crew, SYNC voice control, a rear view camera, and power windows front and rear. Finished in Ruby Red Metallic with a dark interior, it also came factory equipped with a Class IV trailer hitch and the heavy duty payload package for the buyer who actually puts a truck to work. The full Carfax report is available right on this listing and we are happy to walk you through it together.
