2024 Hyundai IONIQ 5

Introducing the 2024 Hyundai Ioniq 5 RWD Long Range with the Preferred Package—an innovative and stylish all-electric crossover finished in a sleek gray that exudes modern sophistication. With just over 16,000 kilometers on the odometer, this lightly driven Ioniq 5 is a standout in the EV segment, offering exceptional range, comfort, and technology in a package that's as forward-thinking as it is practical. Built on Hyundai's dedicated Electric-Global Modular Platform (E-GMP), the Ioniq 5 combines futuristic design with cutting-edge engineering to deliver a driving experience that feels like a glimpse into the future.

Equipped with rear-wheel drive and Hyundai's Long Range battery configuration, this Ioniq 5 offers an impressive estimated driving range of up to 488 kilometers on a full charge. That kind of distance gives you true electric freedom—perfect for daily commuting, weekend road trips, or simply eliminating range anxiety altogether. Powered by a single electric motor producing 225 horsepower and 258 lb-ft of torque, the Ioniq 5 delivers smooth, confident acceleration with immediate torque response and whisper-quiet operation. Whether you're navigating stop-and-go city streets or cruising comfortably on the highway, the Ioniq 5 delivers composed, efficient, and responsive performance every time you press the pedal.

The design language of the 2024 Ioniq 5 sets it apart from everything else on the road. Its sharp lines, clamshell hood, pixel-inspired LED lighting, and ultra-modern proportions blend retro inspiration with futuristic execution. The gray finish enhances its sculpted surfaces and aerodynamic silhouette, giving it a subtle, refined presence that still manages to turn heads. Flush-mounted door handles and 19-inch aero-optimized wheels complete the package, combining aesthetics with function for a clean, seamless look.

Inside, the cabin is a masterclass in minimalist design and everyday usability. The Preferred Package enhances the experience with premium features including a leather-wrapped heated steering wheel, heated front seats, dual-zone climate control, and Hyundai's advanced tech interface. The flat floor and sliding center console open up the interior in surprising ways, creating a lounge-like feel that's perfect for families, professionals, or anyone who appreciates a spacious and uncluttered environment. The Ioniq 5 offers generous rear legroom and a flexible cargo area, making it as practical as it is progressive. With rear seats that recline and fold down flat, it's easy to maximize space for whatever life throws at you—be it groceries, luggage, or gear for weekend getaways.
