## 2019 Volkswagen Atlas

The 2019 Volkswagen Atlas 3.6 FSI Highline is a family SUV that blends power, practicality, and upscale features in a spacious three-row design. With seating for seven, advanced technology, and a refined interior, it's built to handle everything from school runs to weekend road trips in comfort and style.

Power comes from a 3.6-litre FSI V6 engine producing 276 horsepower and 266 lb-ft of torque, paired with an 8-speed automatic transmission for smooth, responsive driving. With 4MOTION® all-wheel drive, the Atlas offers confidence in all weather conditions while also delivering the strength to tow trailers, boats, or campers with ease.

Step inside and you'll find a cabin designed for families who value comfort and convenience. The Highline trim offers leather seating surfaces, heated front and second-row seats, a heated steering wheel, and power-adjustable front seats with memory. The third row is easy to access, and with the rear seats folded, the Atlas transforms into a spacious cargo hauler for bigger adventures.

Technology is a highlight, featuring an 8-inch touchscreen infotainment system, Apple CarPlay® and Android Auto™, navigation, and a Fender® premium sound system that makes every drive more enjoyable. A panoramic sunroof brings in plenty of natural light, adding to the upscale feel of the cabin.

Safety and driver confidence come standard with features like adaptive cruise control, blind spot monitoring, lane keeping assist, and a rearview camera.

Combining power, space, and premium features, the 2019 Volkswagen Atlas 3.6 FSI Highline is an SUV designed for families who want comfort and versatility in every drive.
