2024 GMC Sierra 1500

If you’re searching for a premium off-road-ready pickup that’s as refined on the road as it is fearless in the wild, this white 2025 GMC Sierra 1500 AT4X 4x4 with the 6.2L V8 and just over 17,500 kilometers delivers an uncompromising balance of raw capability, cutting-edge technology, and luxurious comfort. This is a truck built for serious adventurers, weekend warriors, and anyone who demands more than the average pickup can offer.

Under the hood lies GMC’s most powerful engine—a commanding 6.2-liter EcoTec3 V8 that produces an exhilarating 420 horsepower and 460 lb-ft of torque. Paired with a 10-speed automatic transmission, this powertrain delivers relentless acceleration, confident towing, and a smooth, controlled ride. Whether you’re pulling a trailer, merging onto the highway with ease, or navigating rugged terrain, the 6.2L V8 responds with authority. It’s capable of towing over 8,900 lbs when properly equipped, while still offering surprising fuel efficiency thanks to active fuel management and dynamic fuel optimization.

Where the AT4X truly sets itself apart is in its off-road prowess. It comes equipped with front and rear e-locking differentials, a segment-exclusive feature that offers true trail-conquering ability. These locking diffs, combined with the advanced Multimatic DSSV spool-valve dampers—a technology borrowed from race engineering—provide precision damping and unmatched control over rough and uneven surfaces. The 2-inch factory lift, terrain mode with one-pedal crawling, off-road rock sliders, and underbody skid plates all work in unison to turn rough trails into smooth journeys. Whether it’s deep mud, steep grades, or rocky trails, the AT4X is purpose-built to handle it all.

But make no mistake—this is not just a hardcore off-roader. Step inside the cabin and you’re welcomed by one of the most luxurious interiors ever offered in a Sierra. The AT4X’s interior is wrapped in premium full-grain leather with white contrast stitching and Vanta Ash wood accents that elevate the space far above typical truck expectations. Heated and ventilated front seats, a heated steering wheel, dual-zone automatic climate control, and 16-way power-adjustable front seats with massage functionality make every drive, short or long, a first-class experience.

Technology is front and center, starting with the massive 13.4-inch touchscreen infotainment system paired with a 12.3-inch digital driver display. Google Built-In comes
