2018 Honda Civic Hatchback

This 2018 Honda Civic Sport Touring Hatchback in crisp white offers a rare combination of low mileage, premium features, sporty styling, and hatchback versatility—all built on the foundation of Honda’s rock-solid reputation for reliability. With just over 42,000 kilometers on the odometer, this Civic has seen remarkably light use and is ready to provide many more years of dependable, efficient, and enjoyable driving. It’s the ideal vehicle for someone seeking a stylish daily driver with a high-end feel, athletic performance, and all the modern conveniences.

Under the hood, the Civic Sport Touring Hatchback is powered by a responsive 1.5-liter turbocharged four-cylinder engine producing 180 horsepower and 162 lb-ft of torque. Mated to a smooth-shifting continuously variable transmission (CVT), this engine offers the best of both worlds—lively acceleration when you need it and outstanding fuel economy when you’re cruising. It’s agile in traffic, composed on the highway, and economical at the pump, making it a great match for both commuters and weekend travelers.

What truly sets the Sport Touring trim apart is its rich feature set and sporty attitude. The white exterior highlights the Civic’s aggressive design elements, including the gloss black grille, sharp body lines, LED headlights and taillights, center-mounted dual exhaust, and 18-inch alloy wheels. The hatchback layout not only gives it a bold, athletic appearance but also adds a practical edge. With the rear seats up, the Civic already offers impressive cargo space, and folding them flat reveals even more room for gear, groceries, or luggage—making it as functional as it is fun.

Step inside, and the cabin delivers an upscale experience that far exceeds expectations for a compact hatch. The Sport Touring trim includes leather-trimmed seats, with heated front and rear seats to keep everyone comfortable year-round. Dual-zone automatic climate control ensures personalized comfort, while the power-adjustable driver’s seat provides the support needed for long drives. The Civic’s interior design is clean, modern, and ergonomic, with soft-touch materials and thoughtful touches throughout.

Technology is a major highlight. The large 7-inch touchscreen infotainment system offers Apple CarPlay and Android Auto integration, giving you full access to your
