Maximum space. Premium comfort. Serious capability. The 2024 Ford Expedition Limited Max is built for families who need room for everything and everyone.

The extended Max body style delivers extra cargo space behind the third row, giving you true full size flexibility. Whether it is luggage for a road trip, sports equipment, or large shopping runs, the Expedition Limited Max handles it with ease. Its bold grille, LED lighting, and refined exterior accents give it a commanding, upscale presence on the road.

Inside, the Limited trim surrounds you with comfort. Leather trimmed seating, heated and ventilated front seats, heated second row seats, and a power adjustable driver's seat with memory create a first class experience. The spacious three row layout offers generous legroom in every row, while power folding seats make cargo changes simple. A panoramic roof adds light and openness to the already expansive cabin.

Under the hood, the 3.5L EcoBoost twin turbo V6 produces up to 380 horsepower and 470 lb ft of torque. Paired with a smooth 10 speed automatic transmission, it delivers strong acceleration and confident towing capability. When properly equipped, the Expedition can tow up to 9,300 pounds. Four wheel drive enhances traction and control in changing conditions.

Technology is advanced and intuitive. A large touchscreen with SYNC 4 includes navigation, Apple CarPlay, and Android Auto for seamless connectivity. A premium B and O audio system delivers rich sound, while a fully digital instrument cluster keeps key information clear and customizable.

Safety comes standard with Ford Co Pilot360 Assist. Adaptive Cruise Control, Blind Spot Monitoring with Trailer Coverage, Lane Keeping System, Pre Collision Assist with Automatic Emergency Braking, and a 360 degree camera system all work together to enhance confidence behind the wheel.
