2024 Chevrolet Silverado 1500

If you’ve been searching for a full-size pickup that balances exceptional off-road capability with premium refinement and cutting-edge technology, this blue 2024 Chevrolet Silverado 1500 ZR2 Bison is in a class of its own. With just over 500 kilometers on the odometer, it’s essentially brand new—and already loaded with segment-leading features designed for serious adventure, superior comfort, and uncompromised performance. This is more than a truck—it’s a statement of purpose, built for those who go further.

At the heart of this ZR2 Bison is the acclaimed 3.0L Duramax turbo-diesel inline-six engine, delivering 305 horsepower and an impressive 495 lb-ft of torque. Renowned for its low-end pulling power and exceptional efficiency, the Duramax pairs with a smooth and responsive 10-speed automatic transmission to give you confident towing, trail crawling, or highway cruising—often all in the same day. Whether you’re tackling demanding trails or simply heading to work, the diesel’s fuel economy and torque-rich delivery make it the ideal engine for drivers who demand both power and endurance.

What truly sets the ZR2 Bison apart is its no-compromise off-road engineering. Built in collaboration with American Expedition Vehicles (AEV), this trim adds stamped steel front and rear bumpers, five hot-stamped boron steel skid plates, AEV-branded 18-inch wheels, and aggressive Goodyear Wrangler Territory MT tires—built for serious off-road traction. The Multimatic DSSV spool-valve dampers, locking front and rear differentials, and a widened stance elevate this truck’s trail credentials, giving it exceptional ground clearance and articulation. Whether you’re crawling through rock gardens or navigating mud and snow, this truck is ready to dominate the terrain.

The 5.8-foot bed offers plenty of practical utility, while the rugged Durabed design features class-leading cargo volume, 12 fixed tie-downs, a corner step bumper, and spray-in bedliner. It’s the kind of cargo area that’s equally at home hauling adventure gear, building materials, or toys for the weekend.

Visually, the deep blue exterior perfectly complements the ZR2 Bison’s aggressive styling. Blacked-out accents, bold badging, and flared fenders underscore the truck’s presence, while functional features like red tow hooks and the integrated snorkel-ready design hint at its serious overlanding potential.
