2023 Chevrolet Blazer

*GM CERTIFIED PRE-OWNED RATES @ 4.99% O.A.C

Commanding attention with its aggressive styling and finished in Mosaic Black Metallic, this 2023 Chevrolet Blazer RS AWD is where bold performance meets refined practicality. As the top-of-the-line trim, the RS brings sporty design, premium features, and advanced technology into one sleek package. With just over 27,000 kilometers on the odometer and the remaining balance of Chevrolet’s 3-year/60,000 km comprehensive warranty, this Blazer offers peace of mind and value for families or professionals who want luxury, versatility, and confidence in every drive.

Under the sculpted hood lies a powerful 3.6L V6 engine that delivers an impressive 308 horsepower and 270 lb-ft of torque. Mated to a smooth and intelligent 9-speed automatic transmission, this Blazer RS not only accelerates with authority but also maintains respectable fuel economy for an SUV of its size. Whether you’re merging onto the highway, climbing through mountain passes, or navigating tough winter conditions, the advanced twin-clutch all-wheel-drive system distributes torque where it’s needed most for a responsive and stable ride. This Blazer isn’t just about good looks—it backs it up with real driving capability.

Inside the RS, the cabin feels just as athletic as the exterior suggests. Jet black leather-appointed seating with red contrast stitching sets the tone, and the driver-centric cockpit wraps you in comfort and control. The heated front seats, heated steering wheel, and dual-zone automatic climate control ensure all-weather comfort, while the 8-way power driver seat with lumbar support lets you customize your ride with ease. The RS also includes a hands-free power liftgate, remote start, and keyless entry with push-button start—making daily errands or road trips a breeze.

Tech-savvy families will appreciate the Chevrolet Infotainment 3 Plus system with a large 10.2-inch HD color touchscreen. Wireless Apple CarPlay and Android Auto mean no more tangled cords, and integrated navigation ensures you never miss a turn. A 6-speaker sound system fills the cabin with rich audio, and with USB ports in both the front and rear, everyone stays charged and connected. Built-in 4G LTE Wi-Fi hotspot capability keeps your crew online wherever the road leads.
