2024 Ford F-150

WE DELIVER ANYWHERE IN CANADA!

The 2024 Ford F-150 Tremor is built for drivers who want serious off road capability without giving up everyday comfort. With its aggressive stance, bold grille, unique Tremor accents, and upgraded suspension, this truck looks ready for adventure from every angle.

Under the hood, the F-150 Tremor delivers impressive power and strong towing capability, making it just as comfortable hauling equipment as it is exploring back roads. Its advanced 4WD system, off road tuned suspension, and selectable drive modes help tackle mud, snow, gravel, and uneven terrain with confidence. Despite its rugged nature, the ride stays smooth and controlled on the highway.

Inside, the cabin combines durability with modern comfort. Premium materials, unique Tremor trim details, and supportive seating create a refined space that still feels tough enough for work and play. Heated front seats, a heated steering wheel, and dual zone climate control add comfort in every season.

Technology is a major highlight. The large touchscreen infotainment system features Apple CarPlay and Android Auto integration, giving you easy access to navigation, music, and hands free communication. Multiple camera views and advanced towing technology help make trailering and maneuvering easier in tight spaces or rough conditions.

The spacious SuperCrew cabin offers plenty of room for passengers and gear, while the truck bed is ready for tools, equipment, or weekend toys. Whether you are heading to the job site or escaping into the mountains, the Tremor is built to handle it all.

Ford Co-Pilot360 safety features help support confidence on the road with systems designed to assist with braking, lane control, blind spot monitoring, and driver awareness.
