2023 GMC Yukon XL

*GM CERTIFIED PRE-OWNED RATES @ 4.99% O.A.C

The 2023 GMC Yukon XL SLE 4WD in sleek gray offers the perfect balance of presence, practicality, and premium comfort, making it a standout choice in the full-size SUV market. With just under 34,000 km, this vehicle has been gently driven and meticulously cared for, giving you the confidence of nearly new condition without the price tag of a brand-new model. Its bold and refined exterior styling is unmistakably GMC, with a commanding front grille, sculpted lines, and an extended wheelbase that not only enhances its look but also maximizes interior space. The gray finish adds an understated sophistication, ensuring it stands out for all the right reasons on city streets or open highways.

Step inside, and the Yukon XL SLE welcomes you with a spacious and thoughtfully designed cabin built to accommodate both passengers and cargo with ease. Three rows of seating provide exceptional comfort for up to eight occupants, while high-quality materials and smart ergonomics make every trip enjoyable. The extended XL model ensures an abundance of cargo room, even with all rows in use—something many competitors can't match. Technology is seamlessly integrated, featuring a large infotainment system with Apple CarPlay, Android Auto, Bluetooth connectivity, and multiple USB ports to keep everyone connected and entertained. Convenience features like tri-zone climate control, a power driver's seat, and an intuitive layout make daily driving and long trips equally enjoyable.

Under the hood, the Yukon XL SLE is powered by a robust V8 engine paired with smooth 4WD capability, giving you the confidence to tackle all weather conditions and terrain with ease. Despite its size, the engineering ensures a surprisingly composed ride and respectable fuel economy for its class, making it both powerful and practical. GMC's reputation for durability and performance shines through, offering peace of mind that this SUV is built to last for years to come.

Safety remains a priority in the Yukon XL, with features like lane-keeping assist, forward collision alert, automatic emergency braking, and multiple airbags working together to keep you and your loved ones secure. Add to that GMC's long-standing reputation for reliability, and you have a vehicle that you can trust to deliver for your family's needs, whether it's the daily commute, weekend getaways, or extended road trips.
