2023 GMC Acadia

The 2023 GMC Acadia AT4 is built for drivers who want adventure without sacrificing refinement. With bold styling, a powerful V6 engine, and advanced technology, this SUV is ready to tackle both city commutes and weekend trails with confidence.

At its core is a 3.6-litre V6 engine producing 310 horsepower and 366 Nm of torque, paired with a 9-speed automatic transmission. Standard all-wheel drive, a twin-clutch AWD system, and hill descent control give the Acadia AT4 real off-road capability, while still delivering smooth, composed handling on the highway.

The exterior commands attention with exclusive AT4 design elements, 17-inch gloss-black wheels with all-terrain tires, and a rugged stance that sets it apart. Step inside, and you'll find a cabin designed for both comfort and practicality, featuring leather-appointed seating, heated front seats, a heated steering wheel, tri-zone climate control, and flexible three-row seating for up to six passengers.

Technology is front and centre with an 8-inch GMC Infotainment System touchscreen, Apple CarPlay® and Android Auto™, wireless charging, and a premium sound system. Safety comes standard with GMC Pro Safety Plus, including lane keep assist, forward collision alert, automatic emergency braking, and a rearview camera for added peace of mind.

Rugged, capable, and refined, the 2023 GMC Acadia AT4 is the SUV that's just as ready for the trail as it is for the daily drive.
