2023 Honda Civic Sedan

NEW TO CANADA? WE HAVE AN APPROVAL WAITING FOR YOU!

Clean design, proven reliability, and modern efficiency come together in the 2023 Honda Civic Sedan LX. This compact sedan continues to set the standard for everyday driving with its sleek profile, refined front styling, and balanced proportions that give it a confident, contemporary look on the road.

The interior is thoughtfully designed with comfort and simplicity in mind. Supportive seating, quality materials, and an uncluttered dashboard create a calm and inviting space for daily commutes or longer drives. The cabin offers excellent legroom for both front and rear passengers, while the trunk provides generous space for groceries, bags, or weekend essentials.

Technology is easy to use and right where you need it. The infotainment display integrates seamlessly with Apple CarPlay and Android Auto, keeping navigation, music, and hands free communication accessible without distraction. A digital instrument display provides clear driving information, and push button start adds everyday convenience.

On the road, the Civic LX delivers smooth, efficient performance with a composed ride and responsive handling. Steering feels precise, the suspension absorbs road imperfections well, and the overall driving experience is quiet and comfortable, making it an ideal choice for city and highway driving alike.

Safety remains a key strength. Honda Sensing comes standard and includes Collision Mitigation Braking, Lane Keeping Assist, Adaptive Cruise Control, and Road Departure Mitigation to help support awareness and confidence behind the wheel.

Efficient, comfortable, and built with Honda's reputation for long term reliability, the 2023 Honda Civic Sedan LX is a smart choice for drivers who value simplicity
