2017 Honda Civic Sedan

This 2017 Honda Civic EX-T sedan, finished in a crisp white exterior, delivers a blend of sporty performance, refined comfort, and long-lasting reliability that few compact cars can match. With just under 70,000 kilometers, this well-maintained example has seen gentle use and still has plenty of worry-free years ahead. It represents an ideal choice for anyone seeking a fuel-efficient, tech-savvy daily driver that still offers an engaging experience behind the wheel.

Under the hood, the EX-T trim distinguishes itself with a spirited 1.5-liter turbocharged four-cylinder engine, producing 174 horsepower and 162 lb-ft of torque. Paired with Honda's smooth CVT transmission, this setup offers strong acceleration and seamless power delivery without sacrificing fuel economy. With a combined fuel consumption rating of just around 6.7L/100km, it's the kind of car that rewards you with both lively performance and low cost at the pump—perfect for commuting, road trips, or city driving alike.

Visually, the EX-T sedan carries a clean, upscale appearance that's enhanced by the white exterior finish. Its aerodynamic design is both sleek and functional, helping improve efficiency while maintaining a modern, sporty look. Distinctive LED daytime running lights and fog lights enhance visibility and style, while the 17-inch alloy wheels give it a grounded, athletic stance. The EX-T trim strikes a balance between practicality and flair, appealing to drivers who want more than just basic transportation.

Inside, this Civic is just as impressive. The cabin is spacious, well-designed, and equipped with a long list of desirable features that enhance every drive. The one-touch power moonroof lets in plenty of natural light and fresh air, and the dual-zone automatic climate control ensures that both driver and passenger stay comfortable in any season. Heated front seats add warmth during Canadian winters, while the remote engine start system allows you to warm up the car before even stepping outside.

Technology is a strong point in the EX-T trim. A 7-inch touchscreen infotainment system supports Apple CarPlay and Android Auto, allowing seamless smartphone integration for music, navigation, and hands-free calling. Bluetooth connectivity and a USB audio interface make it easy to stay connected and entertained, while steering wheel-mounted controls let you operate key features without taking your hands off the wheel. The digital gauge cluster adds a modern touch, offering clear and customizable information for the driver.
