2018 Kia Sportage

If you're searching for a compact SUV that blends style, confidence, and everyday practicality, the Kia Sportage is a standout choice—especially with under 90,000 kilometres on the odometer. This well-maintained example offers the perfect balance of value and versatility, giving you modern features and all-weather capability at a price point that makes sense.

From the outside, the 2018 Sportage EX AWD has a bold and distinctive design that still feels fresh today. Its signature grille, swept-back headlights, and sculpted body lines create a sporty yet refined appearance. Stylish alloy wheels and a confident stance give it road presence without being oversized, making it ideal for city driving while still offering the practicality of an SUV. It's a vehicle that looks equally at home in your driveway, at the office, or heading out for a weekend getaway.

Step inside, and you'll appreciate a cabin designed with both comfort and functionality in mind. The EX trim adds thoughtful upgrades, including heated front seats, dual-zone automatic climate control, and high-quality materials that elevate the overall driving experience. The seating is supportive and spacious, offering excellent headroom and legroom for both front and rear passengers. A versatile cargo area makes it easy to load groceries, sports equipment, or luggage, and the split-folding rear seats provide additional flexibility when you need extra space.

Technology is intuitive and easy to use. The touchscreen infotainment system features Apple CarPlay and Android Auto compatibility, allowing you to seamlessly connect your smartphone for navigation, music, and hands-free communication. Bluetooth connectivity, steering-wheel-mounted controls, and available push-button start add to the convenience, making daily driving effortless and enjoyable.

Under the hood, the Sportage EX AWD delivers smooth and dependable performance. Its responsive engine provides confident acceleration for merging and passing, while the all-wheel-drive system enhances traction and stability in rain, snow, and changing Canadian road conditions. The ride quality is comfortable and composed, striking an ideal balance between agility and refinement. Fuel efficiency remains competitive within the compact SUV segment, helping you save at the pump without compromising capability.
