2024 Honda Pilot

NEW TO CANADA? WE HAVE AN APPROVAL WAITING FOR YOU!

Family space meets premium comfort in the 2024 Honda Pilot Touring. This three row SUV is designed to handle busy schedules, long road trips, and everything in between while delivering the refinement and technology drivers expect from a modern Honda.

From the outside, the Pilot features a bold grille, sleek LED lighting, and strong body lines that give it a confident, modern look. Its wide stance and refined styling make it feel substantial without sacrificing everyday drivability.

Under the hood, a 3.5L V6 engine produces 285 horsepower paired with a smooth 10 speed automatic transmission. Acceleration is strong and effortless, while the suspension keeps the ride quiet and composed. All wheel drive enhances traction and stability in rain, snow, and changing road conditions, making it ready for year round driving.

Inside, the Touring trim delivers an upscale cabin built for comfort. Leather trimmed seating, heated front and second row seats, and a heated steering wheel create a welcoming environment. The second row captain's chairs provide easy access to the third row, while the power folding third row makes it simple to switch between passengers and cargo. A panoramic moonroof fills the cabin with natural light and adds to the spacious feel.

Technology is fully integrated. A large touchscreen infotainment system includes built in navigation, Apple CarPlay, and Android Auto for seamless connectivity. A premium Bose audio system delivers rich sound throughout the cabin, and a digital driver display keeps key vehicle information clear and easy to read.

Safety comes standard with Honda Sensing. Adaptive Cruise Control, Collision Mitigation Braking, Lane Keeping Assist, Blind Spot Monitoring, and a multi angle
