2021 Chevrolet Silverado 1500

*GM CERTIFIED PRE-OWNED RATES @ 4.99% O.A.C

If you're in the market for a full-size pickup that blends modern style, everyday practicality, and powerful capability, this black 2021 Chevrolet Silverado 1500 RST Crew Cab delivers the complete package. With just over 80,000 kilometers on the odometer, it strikes a perfect balance between proven reliability and contemporary features—all wrapped in a bold, blacked-out design that gives it an unmistakably confident presence on the road.

Under the hood, the 2021 RST trim comes equipped with the versatile 5.3L EcoTec3 V8 which is engineered for strong performance, but the RST's true strength lies in how it delivers responsive power while maintaining respectable fuel economy—particularly with GM's advanced 10-speed automatic transmission providing smooth shifts and optimized efficiency whether you're towing, hauling, or commuting.

The Crew Cab configuration offers true full-size versatility. With four full doors and expansive rear-seat legroom, it easily accommodates five adults in comfort—making it a great choice for both work crews and growing families. The spacious interior blends durable materials with smart design, offering generous storage compartments, practical ergonomics, and a layout that feels both functional and refined.

From the outside, the RST trim is known for its street-smart styling. This particular truck wears a sleek black paint finish that pairs perfectly with its color-matched bumpers, black badging, and blacked-out grille, giving it a sportier edge compared to other trims. The look is clean, aggressive, and unmistakably modern. Body lines are sharp and purposeful, while the wide stance and alloy wheels add presence whether it's parked at a jobsite or pulling into a driveway.

Practicality is where the Silverado shines. The short bed offers just over five-and-a-half feet of cargo space, made from GM's signature high-strength Durabed steel that's built to handle tools, equipment, or weekend gear with ease. With multiple tie-down points, a power-locking tailgate, and a corner step rear bumper, loading and unloading is made simple and efficient.
