## 2024 GMC Sierra 1500

Experience commanding power and refined luxury with the 2024 GMC Sierra 1500 Crew Denali 4WD, designed for drivers who demand performance and sophistication in every journey.

This White Frost Tricoat Sierra 1500 Denali combines a robust 6.2L ECOTEC3 V8 engine delivering 420 horsepower and 460 lb-ft of torque with advanced Dynamic Fuel Management for impressive capability and efficiency. The 10-speed automatic transmission and four-wheel drive system ensure confident handling on any terrain, while the locking limited-slip differential enhances traction when the road gets tough. Inside, the cabin is a sanctuary of comfort with heated and cooled leather bucket seats, power-adjustable with memory settings to keep you perfectly supported on long drives or tough workdays. The rear seats also offer heating and a convenient pass-through for added versatility.

Technology is seamlessly integrated with an aerial view display system, adaptive cruise control, and a premium sound system that brings entertainment and safety together. The navigation system and WiFi hotspot keep you connected, while safety features like blind spot monitoring, lane keeping assist, front collision mitigation, and cross-traffic alert provide peace of mind. Practical touches such as an integrated tailgate step, running boards, and a tow hitch make this truck as functional as it is stylish. The Sierra 1500 Denali is built to perform and impress, whether on the job or off the beaten path.
