2024 Chevrolet Blazer EV

*GM CERTIFIED PRE-OWNED RATES @ 0.99% O.A.C

The 2024 Chevrolet Blazer EV LT eAWD is where bold design meets next-generation electric performance, delivering an SUV that feels as exciting as it is practical. With just under 30,000 kilometers on the odometer, this Blazer EV offers the perfect opportunity to step into a nearly new electric vehicle while enjoying the modern technology, impressive capability, and sleek styling that make it one of the most talked-about SUVs in its class.

At first glance, the Blazer EV commands attention with its striking, futuristic exterior. Inspired by the aggressive styling of Chevrolet's performance vehicles, the Blazer EV features sharp body lines, a wide athletic stance, and a sculpted front end that gives it a confident, modern presence on the road. The sleek LED lighting signature and aerodynamic design not only enhance its appearance but also help improve efficiency and range. It's an SUV that looks powerful and progressive whether it's parked in your driveway or cruising through the city.

Inside, the cabin feels spacious, refined, and thoughtfully designed for everyday comfort. High-quality materials, supportive seating, and a quiet electric ride create an environment that feels upscale and relaxing. With generous passenger space and a flexible cargo area, the Blazer EV is ready for everything from daily commutes to weekend road trips. The layout is clean and driver-focused, giving you easy access to all controls while maintaining a modern, uncluttered feel.

Technology is a major highlight in the Blazer EV. A large digital driver display and an impressive central touchscreen provide a modern command center for navigation, entertainment, and vehicle settings. Seamless smartphone connectivity keeps you connected to your apps, music, and contacts, while integrated EV-specific tools help you monitor charging status, driving range, and route planning. Everything is designed to make driving easier, smarter, and more enjoyable.

Performance is where the Blazer EV LT eAWD truly shines. Its dual-motor electric all-wheel-drive system delivers instant torque and smooth, responsive acceleration that makes merging and passing effortless. The eAWD system also provides excellent traction and stability in a wide range of road conditions, giving you extra confidence in
