2025 Cadillac XT4

*GM CERTIFIED PRE-OWNED RATES @ 4.99% O.A.C

With just over 15,000 kilometers, this black-on-black 2025 Cadillac XT4 AWD Sport represents the cutting edge of modern luxury, athletic design, and intelligent technology in a compact SUV. As one of the latest offerings from Cadillac, the 2025 XT4 Sport trim delivers a perfect fusion of dynamic performance and premium sophistication, tailored for drivers who demand more than just transportation—they want presence, precision, and prestige in every drive.

The exterior of the 2025 XT4 Sport radiates confidence and athleticism. Finished in a deep gloss black, this SUV commands attention with its bold, chiseled lines and performance-inspired accents. Darkened exterior elements, exclusive to the Sport trim, including gloss-black window surrounds, grille, and roof rails, enhance its aggressive stance while maintaining Cadillac’s elegant proportions. The sportier fascia, 20-inch alloy wheels, and distinctive LED lighting signature create a look that is simultaneously modern, upscale, and unmistakably Cadillac.

Inside, the XT4 Sport wraps you in a cockpit designed with driver-focused luxury. The cabin is dressed in premium perforated Jet Black leather with red accent stitching, offering a perfect balance of comfort and sporty refinement. The bolstered front seats are both heated and ventilated, allowing you to enjoy tailored comfort regardless of the season. A heated steering wheel, memory settings for the driver seat, mirrors, and steering column, and a panoramic sunroof further enhance the premium feel. The cabin is surprisingly spacious, with generous rear legroom and versatile cargo capacity, making it suitable for both city life and weekend escapes.

Under the hood, the XT4 Sport is powered by Cadillac’s proven 2.0-litre turbocharged four-cylinder engine, delivering a punchy 235 horsepower and 258 lb-ft of torque. This powerplant is mated to a smooth 9-speed automatic transmission and standard all-wheel drive, giving you strong acceleration and confident traction in all weather conditions. Whether you’re weaving through urban traffic or exploring more open roads, the XT4 Sport handles with precision and athleticism, thanks in part to its Active Sport Suspension system—exclusive to this trim—which continually adapts to road conditions for a more engaging drive. Fuel efficiency remains a strong point, with an estimated consumption of just 9.5 L/100 km in the city and 7.3 L/100 km on the highway, delivering the performance you expect without compromising efficiency.
