2019 Chevrolet Trax

The 2019 Chevrolet Trax LS FWD is the perfect small SUV for drivers who want practicality, efficiency, and modern convenience—all wrapped in a compact package that's incredibly easy to live with. With just under 53,000 km, this Trax stands out immediately for its excellent condition and low mileage, making it a smart and reliable choice for anyone seeking long-term value without the price tag of a new vehicle. Its clean, contemporary design gives it a confident road presence, while its compact size makes parking and maneuvering in tight city spaces effortless.

Inside, the Trax LS surprises with an impressively spacious and thoughtfully designed cabin. Supportive seating, generous headroom, and a tall driving position make it comfortable for daily commuting or weekend getaways. The intuitive Chevrolet infotainment system offers seamless Apple CarPlay and Android Auto connectivity, putting your music, navigation, and communication right at your fingertips. Smart conveniences like a rearview camera, power windows and locks, and well-placed storage compartments make every trip—long or short—more enjoyable.

Under the hood, the Trax delivers fuel-efficient performance that's ideal for urban driving and highway cruising alike. Its responsive turbocharged 1.4L engine offers plenty of pep while keeping fuel costs low, and the FWD system keeps the vehicle light, efficient, and easy to handle. With fewer moving components compared to an AWD model, you also benefit from reduced long-term maintenance costs—something budget-conscious buyers will appreciate.

Chevrolet's commitment to safety shines through in the Trax LS, with features such as 10 airbags, stability control, traction control, and a reinforced safety cage designed to help protect you and your passengers. Combined with its reputation for reliability and low mileage, this 2019 Trax offers the peace of mind that many pre-owned shoppers are searching for.

Compared to competitors, the Trax stands out for its excellent visibility, practical layout, and affordability. It gives you the higher seating position and versatility of an SUV without the high running costs associated with larger vehicles. For students, young professionals, downsizers, or anyone wanting a dependable daily driver, the Trax delivers exceptional value for the price.
