2018 Ram 1500

The 2018 Ram 1500 Express 4x4 Crew Cab with the 5'7" box is a perfect example of how capability, practicality, and bold style can come together in one versatile full-size pickup. Finished in sleek black, it has a commanding road presence with its aggressive grille, body-colored bumpers, and muscular stance. The Crew Cab configuration means you get the largest interior space Ram offers, making it ideal not only for work duties but also for family trips or weekend adventures. With just under 144,000 km, this truck is ready to keep working hard for years to come, backed by Ram's reputation for durability.

Under the hood sits the legendary 5.7L HEMI V8 engine, a name synonymous with raw strength and proven reliability. Producing 395 horsepower and 410 lb-ft of torque, it delivers robust acceleration and serious pulling power. Paired with an 8-speed automatic transmission, it provides smooth shifts while optimizing performance and efficiency. As a 4x4, it's built for more than just the pavement—its shift-on-the-fly transfer case lets you engage four-wheel drive instantly, giving you confident traction on snow, mud, gravel, or uneven terrain. Whether you're towing heavy loads or navigating a jobsite, this powertrain is designed to perform under pressure.

The 2018 Ram 1500 Express 4x4 is no stranger to hard work. Properly equipped, it offers an impressive towing capacity of up to 10,620 lbs (4,815 kg) and a payload capacity of over 1,700 lbs (771 kg), making it well-suited for trailers, boats, or heavy equipment. The 5'7" box strikes a balance between hauling space and maneuverability, offering plenty of cargo room while still being easy to park and handle. The available spray-in bedliner and multiple tie-down points help protect your investment and keep cargo secure.

Despite its size and capability, the 5.7L HEMI manages competitive fuel consumption for a full-size 4x4 truck. On average, you can expect around 15.7 L/100 km combined, with approximately 17.5 L/100 km in the city and 13.0 L/100 km on the highway. The advanced 8-speed automatic transmission and cylinder deactivation system help improve efficiency when full power isn't needed, giving you the best of both performance and economy.

Step inside and you'll find a spacious cabin that blends durability with comfort. The Crew Cab's generous rear-seat legroom makes it ideal for carrying work crews or family members without compromise. Durable cloth seats stand up to daily wear, and the straightforward layout ensures all controls are within easy reach. The Uconnect
