## 2017 Honda Ridgeline

Refined, capable, and packed with smart features, the 2017 Honda Ridgeline Touring redefines what a pickup can be. It blends truck utility with SUV like comfort, making it perfect for both work and daily driving.

On the outside, the Ridgeline features a clean, modern design with a bold front grille and integrated bed. Its unibody construction gives it a smoother ride and more composed handling than traditional body on frame trucks.

Under the hood, a 3.5L V6 engine delivers 280 horsepower paired with a smooth 6 speed automatic transmission. Acceleration is strong and responsive, while standard all wheel drive provides excellent traction in rain, snow, and rough conditions. The Ridgeline also offers solid towing capability, making it ideal for trailers, boats, or weekend gear.

Utility is where the Ridgeline stands apart. The dual action tailgate opens down or to the side for easier loading, and the in bed trunk provides secure, weatherproof storage for tools, gear, or valuables. The composite bed is durable and resistant to dents and rust.

Inside, the Touring trim adds premium comfort and technology. Leather trimmed seating, heated front seats, a power adjustable driver's seat with memory, and a heated steering wheel create a refined driving environment. The Crew Cab offers generous rear seat space, and the rear seats fold up to expand interior cargo flexibility.

Technology is advanced and easy to use. The touchscreen infotainment system includes navigation, Apple CarPlay, and Android Auto. A premium audio system delivers clear, immersive sound, while features like push button start and remote start add convenience.

Safety features include Honda Sensing with Adaptive Cruise Control, Collision Mitigation Braking, Lane Keeping Assist, Blind Spot Monitoring, and a multi-angle

### OPTIONS

- ✓ Air Conditioning
