2022 GMC Sierra 1500

If you're searching for a dependable, powerful, and stylish full-size pickup that's ready for both work and play, this black 2022 GMC Sierra 1500 Elevation 4x4 with the robust 5.3L V8 engine and just under 81,500 km offers the ideal combination of strength, refinement, and practicality. It's a truck built for people who need muscle under the hood, space inside the cabin, and confidence under any road conditions—all without compromising on modern tech or comfort.

At the heart of this Sierra lies the proven 5.3L EcoTec3 V8 engine, delivering a commanding 355 horsepower and 383 lb-ft of torque. Mated to a smooth 10-speed automatic transmission, this powertrain is built for serious work—whether it's towing a trailer, hauling materials, or taking on long highway drives. Its advanced fuel management system helps balance performance with efficiency by seamlessly switching between eight and four cylinders when full power isn't needed. With a towing capacity of up to 9,200 lbs and a payload rating exceeding 2,000 lbs, this Sierra is more than capable of handling demanding jobs while maintaining the smoothness and composure you'd expect from a modern pickup.

Finished in bold black, the Elevation trim enhances the Sierra's rugged stance with monochromatic exterior accents, body-colored bumpers, and a signature blacked-out grille that gives the truck a commanding road presence. The 20-inch black aluminum wheels complete the look, adding to its aggressive styling. LED headlights and C-shaped daytime running lights provide excellent visibility and a contemporary flair, while the standard LED cargo bed lighting ensures you can keep working long after the sun goes down.

Inside, the cabin is tailored for comfort, utility, and everyday practicality. Premium black cloth seats offer a supportive and spacious environment for up to five passengers, while the elevated ride height gives the driver a confident, commanding view of the road ahead. With just under 81,500 km on the odometer, this Sierra has been gently broken in and stands ready for many more years of reliable service. The interior layout is smart and intuitive, with large physical controls that are glove-friendly, ample storage throughout the cabin, and rear seats that fold up to reveal extra cargo space when needed.

The tech inside matches its rugged persona. A large 13.4-inch touchscreen display anchors the infotainment system, offering seamless integration with Apple CarPlay and
