2017 Honda Civic Hatchback

The 2017 Honda Civic LX Hatchback (CVT) brings together sporty design, smart utility, and everyday efficiency in one sleek package. With its aggressive styling, flexible cargo space, and proven Honda reliability, this hatchback is perfect for drivers who want a little extra versatility—without giving up fuel economy or comfort.

Under the hood, the Civic Hatchback LX features a 1.5-litre turbocharged 4-cylinder engine producing 174 horsepower, paired with a Continuously Variable Transmission (CVT). It delivers responsive acceleration and impressive fuel efficiency—just 6.9L/100 km combined—making it ideal for both city commutes and open-road adventures.

Inside, the hatchback design means more room for what matters. You'll get generous rear cargo space with a low, wide opening and 60/40 split-folding rear seats for added flexibility. The cabin itself is modern, comfortable, and well-appointed with heated front seats, automatic climate control, a rearview camera, and a 7-inch touchscreen featuring Apple CarPlay®, Android Auto™, and Bluetooth® connectivity.

With its low stance, sharp lines, and added practicality, the Civic Hatchback stands out in a crowded segment—and drives like a car that's far more expensive.

Efficient, fun, and built with everyday life in mind, the 2017 Honda Civic LX Hatchback (CVT) is ready for whatever's next.
