## 2019 Ram 2500

Heavy duty power meets premium refinement in the 2019 Ram 2500 Laramie. Built to handle serious work, this truck delivers impressive towing strength while surrounding you with comfort and technology.

On the outside, the Ram 2500 features a bold grille, sculpted hood, and strong body lines that give it a commanding presence. Chrome accents and large alloy wheels add a refined touch to its rugged design.

Under the hood, the powerful engine delivers the torque you need for demanding jobs. The 6.7L Cummins Turbo Diesel produces massive pulling power, while the heavy duty suspension and robust frame provide stability under load. Paired with a smooth automatic transmission and four wheel drive, this truck is ready for towing trailers, hauling equipment, or tackling tough terrain.

Inside, the Laramie trim offers a premium cabin built for long days on the road. Leather trimmed seating, heated and ventilated front seats, a heated steering wheel, and a power adjustable driver's seat create a comfortable, upscale environment. The spacious Crew Cab provides generous rear legroom, making it ideal for both work crews and family use.

Technology is advanced and user friendly. The large Uconnect touchscreen includes navigation, Apple CarPlay, and Android Auto for seamless connectivity. A premium audio system delivers clear sound, while multiple USB ports and smart storage solutions keep everything organized.

Safety features help support confidence when the truck is working hard. Blind Spot Monitoring with Trailer Detection, Forward Collision Warning with Active Braking, Adaptive Cruise Control, a rear view camera, and parking sensors all work together to enhance awareness.

Powerful, refined, and built to perform, the 2019 Ram 2500 Laramie delivers heavy duty capability with premium comfort and technology. Book your test drive with
