2014 MASTERCRAFT X46

Pre-Owned 2014 MasterCraft X46 w/ Low Hours & Big Power

A Rare Opportunity: The Ultimate Wake and Surf Machine

The 2014 MasterCraft X46 is the undisputed king of the large-capacity wake boat segment. Known for its cavernous interior, premium fit and finish, and ability to produce a world-class wake for surfing and a ramp-like wake for boarding, this X46 is ready to dominate the lakes from the Okanagan to the Muskokas.

This particular unit stands out thanks to its ultra-desirable powertrain: the massive **Ilmor 7.4L V8**. With just **301 hours**, this engine is barely broken in but delivers the brute torque necessary to handle a full boat, full ballast, and a full tank of fuel without breaking a sweat. Whether you are pulling a three-event skier or loading up the surf wave for a sunset session, the 7.4L provides the hole-shot and reliability MasterCraft is famous for.

Why This X46 Stands Out

1. Low Hours & Premium Power At only 301 hours, this 2014 model offers the feel of a much newer boat without the new price tag. The **Ilmor 7.4L (522+ hp)** engine is the crown jewel of this build. Unlike smaller displacement engines that struggle under full load, this big-block V8 offers effortless power, better resale value, and the confidence that you can handle any water condition with ease.

2. The Ultimate Social Layout the X46 is built on MasterCraft's deep-V hull, offering one of the deepest and most spacious cockpits in its class. With seating for up to 18 people, it is the ultimate boat for large families, social gatherings, and entertaining clients.

- **Walk-Through Transom:** Seamless access to the rear swim platform, making it easy for surfers and swimmers to get in and out.
- **Captain's Chair:** Ergonomically designed with flip-up bolster for optimal visibility when driving.
- **Ample Storage:** Wakeboards, surfboards, and gear disappear into massive storage compartments under the seats, keeping the interior clean and clutter-free.

3. Gen 2 Surf System Equipped with MasterCraft's **Gen 2 Surf System**, this X46 allows you to switch from a perfectly shaped goofy wave to a starboard wave at the touch of a button. The combination of the deep hull displacement and the integrated tabs create a long, clean, and powerful pocket that advanced surfers will love and beginners will find forgiving.

4. Technology & Sound Stay in command with the **VDIG (Video Display Interface Gateway)** touchscreen display, allowing you to control ballast, speed, and surf settings with precision. The interior is filled with a premium audio system featuring JL Audio components, ensuring your playlist sounds crystal clear whether you're relaxing in the cove or throwing a beach party.
