2017 Acura MDX

The 2017 Acura MDX with the Navigation Package and SH-AWD delivers exceptional luxury, performance, and long-term reliability—making it one of the most compelling choices in the three-row SUV segment. With just over 76,000 km, this MDX has been gently driven and well cared for, offering premium features and proven dependability at a price point that's hard to match. Its exterior design blends sophistication with athletic confidence, featuring sharp body lines, jewel-eye LED headlights, and a bold front grille that give the MDX an unmistakably upscale presence on the road. It's a vehicle that looks just as impressive pulling up to a business meeting as it does heading out for a family getaway.

Inside, the MDX welcomes you with a refined, spacious cabin crafted with high-quality materials and exceptional attention to detail. The Navigation Package enhances your driving experience with a crisp, easy-to-use display that keeps routes, traffic updates, and key information right where you need it. Comfortable leather seating, tri-zone climate control, and thoughtful layout choices ensure that every passenger enjoys both comfort and convenience. With three rows of seating and flexible cargo options, the MDX adapts effortlessly to your lifestyle—whether you're transporting family, luggage, or sporting equipment.

Performance is one of the MDX's greatest strengths. The smooth and responsive V6 engine delivers confident acceleration and excellent highway passing power, while Acura's renowned SH-AWD system provides outstanding traction and stability in all weather conditions. This intelligent all-wheel-drive system actively distributes power for enhanced cornering and control, giving the MDX a dynamic, engaging feel that sets it apart from many competitors. Despite its strong performance, the MDX remains fuel-efficient for its class, making it practical for both daily commuting and long-distance trips.

Safety is at the core of the MDX's design. Acura equips this model with advanced driver-assistance technologies such as lane-keeping assist, adaptive cruise control, forward collision mitigation, blind-spot monitoring, and more. These features work together to help protect you and your passengers on every journey, offering peace of mind whether you're navigating busy city streets or cruising the highway. Combined with Acura's exceptional reliability reputation and the well-maintained condition of this vehicle, the MDX provides long-term confidence and low ownership stress.
