2021 Alfa Romeo Stelvio

Italian design, exhilarating performance, and everyday versatility come together beautifully in this Alfa Romeo Stelvio. With only one owner and a clean, accident-free history, this Stelvio Ti offers the rare combination of European luxury and documented peace of mind. It's an SUV for drivers who refuse to settle for ordinary—yet still want smart value and long-term confidence.

From the moment you see it, the Stelvio makes an unmistakable impression. Its signature triangular grille, sculpted hood, and flowing body lines reflect Alfa Romeo's racing heritage and unmistakable Italian flair. The Ti trim enhances its upscale presence with refined exterior accents and striking alloy wheels, giving it a look that stands out in a segment often filled with predictable designs. This is not just another luxury SUV—it's a statement of individuality and style.

Inside, the cabin is crafted around the driver, blending premium materials with a purposeful layout. Rich leather seating, elegant trim details, and a clean, intuitive dashboard create an environment that feels both sophisticated and sporty. The seats are supportive and comfortable, designed to hold you confidently in place during spirited driving while remaining plush enough for long highway journeys. Rear passengers enjoy generous space, and the versatile cargo area ensures practicality for daily errands or weekend escapes. With one careful owner and no accidents, this Stelvio's interior and exterior condition reflect pride of ownership and attentive care.

Technology is seamlessly integrated to enhance every drive. The infotainment system features a crisp display with Apple CarPlay and Android Auto compatibility, allowing effortless connectivity for navigation, music, and communication. A customizable driver information display keeps essential data directly in your line of sight, while convenience features such as keyless entry, push-button start, and a power liftgate add everyday ease. Advanced driver-assistance technologies—including blind-spot monitoring, forward collision warning with automatic emergency braking, lane departure warning, and adaptive cruise control—provide reassurance without diminishing the driving experience.

Under the hood, the Stelvio Ti truly shines. Its turbocharged 2.0L engine delivers quick, responsive acceleration and a level of agility that sets it apart from many competitors. The finely tuned suspension and precise steering create a driving experience that feels closer to a sports sedan than a traditional SUV. Alfa Romeo's advanced
