2023 Honda CR-V Hybrid

Efficiency meets upscale comfort in the 2023 Honda CR-V Hybrid Touring. This top trim SUV blends advanced hybrid performance with premium features, giving you exceptional fuel economy without giving up space or refinement.

On the outside, the CR-V Hybrid Touring features sleek LED lighting, bold alloy wheels, and refined exterior accents that give it a confident, modern look. Its wider stance and clean body lines create a strong road presence while maintaining everyday practicality.

Under the hood, the two motor hybrid system pairs a 2.0L engine with electric motors to deliver 204 combined horsepower. Acceleration feels smooth and immediate thanks to instant electric torque, while impressive fuel efficiency helps reduce stops at the pump. Real Time All Wheel Drive comes standard on the Touring trim, adding traction and confidence in rain, snow, and changing road conditions.

Inside, the Touring trim surrounds you with premium detail. Leather trimmed seating, heated front seats, a heated steering wheel, and a power adjustable driver's seat with memory create a first class driving environment. The cabin is quiet and spacious, offering generous legroom for passengers and a versatile cargo area with fold flat rear seats for added flexibility.

Technology is fully integrated. A large touchscreen includes built in navigation, Apple CarPlay, and Android Auto for seamless connectivity. A premium Bose audio system delivers rich, immersive sound, while a digital driver display provides clear hybrid system and vehicle information. Wireless charging adds everyday convenience.

Safety comes standard with Honda Sensing. Adaptive Cruise Control, Collision Mitigation Braking, Lane Keeping Assist, Blind Spot Monitoring, and a multi angle rear view camera work together to enhance awareness and confidence behind the wheel.
