2014 Jeep Cherokee

Bold in design and built with purpose, this red 2014 Jeep Cherokee Sport offers a practical and stylish solution for drivers seeking a dependable SUV with classic Jeep character. With just over 140,000 km on the odometer and a well-maintained history, this front-wheel drive Cherokee delivers everyday comfort, efficient performance, and unmistakable presence on the road — all at an excellent value.

Powered by a 2.4L Tigershark MultiAir I-4 engine, this Cherokee Sport produces 184 horsepower and 171 lb-ft of torque. The engine is mated to a smooth 9-speed automatic transmission, giving you responsive power delivery and efficient fuel economy — ideal for daily commuting, weekend road trips, or errands around town. While it may not be a trail-ready 4x4, the FWD configuration helps reduce weight and fuel consumption, making this model a smart, efficient choice for city and highway driving.

Finished in a vibrant red exterior, this Cherokee stands out with a sporty yet rugged stance that stays true to Jeep’s design language. The signature seven-slot grille, angular headlights, and sculpted body lines give it a bold identity, while 17-inch steel wheels and black trim provide a utilitarian, no-nonsense appeal. It’s a vehicle that wears its practicality proudly but doesn’t skimp on style.

Inside, the Cherokee Sport features a clean and functional cabin designed for comfort and versatility. The black cloth seats are supportive and durable, offering a comfortable ride for both driver and passengers. With a surprisingly spacious interior, you’ll find plenty of room for five adults, along with a generous cargo area that expands even more when the rear seats are folded down. Whether you’re hauling groceries, gear, or luggage, this SUV is built to adapt to your lifestyle.

Technology and convenience are well-integrated in this trim, with features like an easy-to-use Uconnect® system with a 5-inch touchscreen display, Bluetooth® hands-free connectivity, USB and auxiliary inputs, and steering wheel-mounted controls. Keyless entry, cruise control, and air conditioning round out the essentials, ensuring a comfortable and connected ride every time you get behind the wheel.

Safety was a priority in the 2014 Cherokee, and even the Sport trim comes equipped with a host of standard safety features. Electronic Stability Control, All-Speed Traction
