2024 Nissan Rogue

This black 2024 Nissan Rogue S AWD with the efficient 1.5-liter 3-cylinder engine and just under 16,000 kilometers is an outstanding choice for drivers who want a modern, fuel-conscious SUV without compromising on capability or style. Combining Nissan’s latest engineering with advanced all-wheel-drive technology, this Rogue offers a perfect blend of efficiency, versatility, and comfort for everyday driving and weekend adventures alike.

Under the hood, the 1.5-liter turbocharged three-cylinder engine pairs seamlessly with a smooth continuously variable transmission (CVT) to deliver a refined driving experience. This smaller displacement engine is designed for impressive fuel economy, averaging around 7.5 liters per 100 kilometers combined, making it an excellent choice for those looking to save on fuel costs without sacrificing power or responsiveness. The intelligent all-wheel-drive system enhances traction and stability by automatically distributing torque between the front and rear wheels, providing confidence and control on slippery roads, wet surfaces, or light off-road conditions.

The exterior of this 2024 Rogue S AWD shines in a sleek black finish that adds an element of sophistication and aggressiveness to its modern design. Featuring Nissan’s signature V-Motion grille, LED daytime running lights, and aerodynamic body lines, the Rogue projects a strong road presence while also optimizing efficiency. The design balances style with function, ensuring this SUV looks as good as it performs.

Inside, the cabin is thoughtfully designed to offer both comfort and practicality. Seating for five is spacious, with cloth upholstery that is durable and easy to maintain. The layout is driver-focused with controls and technology placed intuitively for ease of use. Rear seats fold flat in a 60/40 split, expanding cargo space to accommodate everything from groceries to sports equipment or luggage for a weekend getaway.

Technology is at the forefront with a 7-inch touchscreen infotainment system that includes Apple CarPlay and Android Auto compatibility, allowing you to seamlessly connect your smartphone for navigation, music, and hands-free calls. Bluetooth connectivity and USB ports add to the convenience, keeping you connected and entertained on every journey.
