2025 Chevrolet Silverado 1500

*GM CERTIFIED PRE-OWNED RATES @ 4.99% O.A.C

Dressed in a commanding black exterior and matched with a sleek black interior, this 2025 Chevrolet Silverado 1500 RST stands tall as a modern, full-size pickup that blends rugged capability with everyday refinement. With just over 14,000 kilometers on the odometer, this truck is barely broken in and still well within its prime, offering years of reliable service ahead. As part of the latest model year, it delivers the updated styling, advanced tech, and engineered performance that make the RST trim a standout in the Silverado lineup.

Under the hood, the Silverado RST can be powered by either the turbocharged 2.7-liter engine, the efficient 3.0L Duramax diesel, or the iconic 5.3L V8—each offering a distinct driving experience with strong torque delivery and notable fuel economy for a full-size truck. Whichever configuration this model carries, expect the RST to deliver the balanced performance that truck owners appreciate—whether you’re towing, hauling, or heading out for a weekend road trip. With available 4x4 capability, this Silverado is built to handle Canadian winters, rugged worksites, and off-road trails with confidence and poise.

The RST trim elevates the Silverado’s style with body-color bumpers, a bold blacked-out grille, signature LED lighting, and 18- or 20-inch wheels that give it an aggressive yet refined stance. Inside, the Crew Cab configuration offers spacious seating for up to five passengers with ample legroom and clever storage throughout. Premium cloth seating, a leather-wrapped steering wheel, and smart ergonomics ensure comfort and ease of use on every drive, whether it’s a daily commute or a long-haul adventure.

Technology is front and center in this 2025 model. The Chevrolet Infotainment 3 system is housed in a vibrant touchscreen display with wireless Apple CarPlay and Android Auto compatibility, ensuring seamless smartphone integration without the clutter of cords. Bluetooth, USB ports, and voice-activated controls keep you connected and in control, while the backup camera and available surround-view systems offer peace of mind when navigating tight spaces or hitching a trailer. Remote start, keyless entry, and push-button ignition add to the convenience and modern feel.
