2025 GMC Acadia

*GM CERTIFIED PRE-OWNED RATES @ 3.99% O.A.C

The 2025 GMC Acadia Elevation AWD is a standout midsize SUV that delivers bold styling, modern technology, and confident performance, all with the added peace of mind that comes from exceptionally low mileage. With under 17,500 kilometres, this Acadia presents an outstanding opportunity to enjoy a nearly new vehicle without the wait or the new-vehicle price, making it an especially smart and value-driven choice in today's market.

From the moment you see it, the Acadia Elevation makes a strong first impression. Its athletic stance, blacked-out Elevation accents, aggressive grille, and sculpted body lines give it a refined yet commanding presence that easily sets it apart from more conservative competitors. This is an SUV that looks equally at home in the city, on the highway, or heading out for a weekend getaway, projecting confidence from every angle.

Inside, the Acadia offers a spacious and well-appointed cabin designed with comfort and versatility in mind. The interior feels modern and upscale, with supportive seating, quality materials, and a thoughtful layout that makes every drive enjoyable. Ample room for passengers and flexible cargo space ensure it can handle busy family life, road trips, or everyday errands with ease. Thanks to its low kilometres and recent model year, the vehicle is in excellent condition, reflecting careful use and delivering the reassurance buyers look for in a newer SUV.

Technology is front and centre in the 2025 Acadia Elevation. A large, easy-to-use infotainment system with Apple CarPlay and Android Auto keeps you seamlessly connected, while digital displays and intuitive controls put key information right where you need it. Multiple charging options and smart convenience features enhance the driving experience for both driver and passengers, making every trip more relaxed and enjoyable.

Performance is another strong point. The Acadia's all-wheel-drive system provides confident handling and stability in changing road and weather conditions, giving you added control and peace of mind year-round. Smooth power delivery and responsive acceleration make it comfortable for daily commuting while remaining capable for
