2019 Jeep Compass

This red 2019 Jeep Compass Trailhawk 4x4 is the perfect match for drivers who crave the look and feel of a modern compact SUV but don't want to sacrifice capability or personality. With just under 93,000 kilometers on the odometer, this Compass has seen regular use but remains in excellent condition—offering a rugged, trail-rated Jeep experience that's ready for many more kilometers of adventure. Drenched in a bold red exterior with signature Trailhawk black accents and badging, this Compass isn't just built to handle the road—it's built to stand out on it.

As a Trailhawk model, this Compass is the most off-road-ready variant in the lineup. It comes equipped with Jeep's Active Drive Low 4x4 system and Selec-Terrain traction management, which allows you to confidently tackle snow, mud, sand, and rocky terrain with the turn of a dial. The 2.4-liter Tigershark MultiAir engine under the hood delivers a dependable 180 horsepower and 175 lb-ft of torque, paired to a 9-speed automatic transmission for smooth, responsive performance both on and off the pavement. Whether you're merging on the highway or crawling over unpaved trails, the Compass Trailhawk is engineered to handle the journey with confidence.

Ground clearance is raised to accommodate more aggressive terrain, while off-road suspension tuning and protective skid plates help shield vital components underneath. Hill Descent Control further supports the Compass Trailhawk's readiness for steep slopes and uneven ground, giving drivers greater control in challenging environments. Despite its off-road credentials, fuel economy remains practical—averaging around 10.8 L/100km city and 7.8 L/100km highway—making it a sensible choice for daily driving and weekend exploration alike.

Inside, the Trailhawk's cabin features rugged, stylish design elements with Trailhawk-specific badging, contrast stitching, and durable all-weather materials. Heated front seats and a heated steering wheel come standard, providing comfort through colder seasons. The 8.4-inch Uconnect touchscreen infotainment system is crisp and intuitive, supporting Apple CarPlay, Android Auto, Bluetooth, satellite radio, and built-in navigation. With voice command and hands-free features, staying connected and entertained on the go is effortless.

In terms of space, this compact SUV makes smart use of every inch. There's generous seating for five with ample rear legroom, plus a versatile cargo area with a flat-folding
