2023 Hyundai Tucson Hybrid

The 2023 Hyundai Tucson Hybrid Luxury AWD in a striking blue finish is a bold expression of innovation, style, and efficiency. With just under 57,000 kilometers, this well-cared-for hybrid SUV offers the perfect combination of cutting-edge technology, elevated comfort, and all-weather capability—wrapped in a package that’s as dynamic to drive as it is to look at.

Under the hood, the 2023 Tucson Hybrid is powered by a responsive 1.6-liter turbocharged GDI engine paired with a powerful 44.2 kW electric motor, delivering a combined 226 horsepower. This hybrid system is mated to a 6-speed automatic transmission and HTRAC All-Wheel Drive, giving you smooth acceleration, quiet performance, and excellent control across all road conditions. Despite its power and AWD capabilities, the Tucson Hybrid remains impressively efficient, achieving 6.3 L/100km in the city and 6.6 L/100km on the highway—making it an exceptional choice for eco-conscious drivers who refuse to compromise on performance or capability.

Finished in a bold and modern blue, the exterior is both eye-catching and sophisticated. Hyundai’s new design language features a cascading front grille with integrated hidden LED daytime running lights, sleek body sculpting, and aerodynamic lines that give the Tucson a commanding presence on the road. 19-inch alloy wheels, chrome accents, and roof rails enhance its upscale appeal, while the panoramic sunroof and premium LED lighting complete the look with a touch of elegance.

Step inside and you’re greeted by an interior that rivals luxury SUVs. The Luxury trim offers a meticulously crafted cabin finished with leather upholstery, heated and ventilated front seats, and dual-zone automatic climate control. The power-adjustable driver’s seat with lumbar support and memory settings ensures you find your perfect position every time, while the heated rear seats and heated steering wheel add comfort for everyone onboard during colder months.

Technology takes center stage with a 10.25-inch touchscreen infotainment system, complete with built-in navigation, Apple CarPlay, and Android Auto for seamless smartphone integration. The Bose premium sound system delivers concert-like audio quality, and features like wireless phone charging, multiple USB ports, and proximity key with push-button start elevate convenience across the board.
